

MAINTENANCE, CALIBRATION & REPAIR

GIVING YOU THE CONFIDENCE THAT YOUR LABORATORY EQUIPMENT PERFORMS RELIABLY AND TO SPECIFICATION

Our expansive network of field based engineers gives us the ability to offer nationwide coverage to service, repair, calibrate and validate an extensive range of laboratory and scientific equipment.

What's covered?

- Laboratory washing machines and disinfectors
- Hitachi and VWR Collection HPLC equipment
- -80c freezers and refrigerators
- Ovens, incubators and furnaces
- PCR machines and hotblocks
- Cryogenic systems
- Autoclaves
- Centrifuges
- Media preparators
- Thermometers

Why VWR?

- Tailor made service agreements with a choice of service and calibration intervals
- Highly trained and experienced network of engineers backed by the manufacturer
- Loan equipment available to keep you up and running in an emergency
- In-house workshop for bench top equipment repairs with fast turnaround
- Ability to bundle several pieces of equipment together under one contract
- Large stock holding of manufacturer approved spare parts
- Professional customer support team based in Bristol
- Quality workmanship at competitive rates

UKAS CALIBRATION AND VALIDATION SERVICES

VWR Technical Services can carry out calibrations on most process instrumentation typically found in the laboratory. We are accredited by UKAS for temperature, rotational speed and time.

Accredited to
ISO/IEC 17025:2005

What we can offer you

- UKAS approved certificates issued with details mapping diagrams
- Provision of pre and post calibration instruments data sheets
- Copies of equipment certification provided for all calibration activities
- Equipment cycle programming and set-up
- Origination and execution of IQ-OQ-PQ protocols
- Equipment process cycle data logging
- Graphical, trend and numerical data presentation
- Validation report preparation, review and approval
- Compliance with Regulatory Authorities, such as FDA, MCA and EMEA

IN HOUSE CALIBRATION LABORATORY

We also have an in-house calibration facility to cater for smaller items of equipment or bulk quantities.

- Temperature indicators with probes-sensors
- Dataloggers and chart recorders
- Dry block calibrators
- Mercury-in-glass thermometers
- Pressure measuring instruments
- Conductivity, pH, DO2, turbidity and TDS

We Enable Science Through Services

From research to production, VWR CATALYST can help you e-focus scientific time on initiatives that directly support the strategic mission of your company.

We Enable Science by:

- Powering productivity
- Improving quality, safety and regulatory compliance
- Reducing total operating costs

Our services include:

- Procurement and supply management
- Laboratory and production support
- Scientific support
- Equipment and instrument services
- Lean six sigma process consulting
